Notes:

1	The distance referred to, above is "Chargeable Distance" i.e. equal to 1.25 times of the radial distance between the two points connected.
2	For distances lying in between the distances specified above, the tariffs shall be charged on pro-rata basis.
3	These Tariffs are based on TRAI Tariffs and applicable to the Long Distance Portion as well as Access Link/End Link.
4	These Tariffs are exclusive of GST which shall be charged as per prevailing rate.
5	Discounts on above tariff's may be offered based on the following: (i) Volume of business offered by the customer. (ii) Future commitment of the customer to continue buying (i.e whether the customer raises order for 6months/1Year/2Years/5 Years etc.) (iii) Volume of business expected from the customer in future beyond his presence commitment. (iv) Past Payment record of the customer i.e. the level of average outstanding/ past defaults etc. (v) Cost involved in serving the customer i.e. last mile/access equipment to be provided.
6	Miscellaneous charges such as One Time installation, Co-location charges, Network Element charges as applicable may be charged extra.
7	POWERGRID also offers capacities in higher order i.e STM16, STM 64 etc, the Tariff for which is arrived at based on TRAI Tariff for STM1/4 with market driven price multiples and discounts over base price depending on business volume.
