12. Our Ltr no. NR-1/Comml./ dtd 07.10.2016
13. Our Ltr r no. CC:Comml:JVVNL: dtd 10.10.2016
14. Transmission Service Agreement dtd 25.07.2011

1. JVVNL, Rajasthan is a Designated Inter-State Transmission System Customer (DIC) which is availing Inter-state Transmission System (ISTS) network for transfer of power from various power plants located in different parts of country to JVVNL and is under obligations to make timely payment of transmission tariff and to open requisite Letter of Credit (LC) towards Payment Security Mechanism (PSM) in line with Electricity Act 2003 read with relevant contractual provisions and CERC Regulations.
2. It is, however, a matter of serious concern that JVVNL is consistently failing to make payment of monthly bills raised on it towards transmission tariff despite various commitments and regular follow-up by CTU. As a consequence, total dues of JVVNL have accumulated to **Rs 169 Cr** as on 04.11.2016, which includes an amount of **Rs 20 Cr** outstanding for more than 60 days as on date (*which would grow to Rs 58 Cr. on 06.11.2016*) based on the bills already raised by CTU.

3. Further, JVVNL has established an LC for an amount of **Rs 37 Cr.** only as against the requirement of **Rs 41 Cr.** as per the provisions of CERC Regulations. Enhancement of LC has not been done despite regular follow up and reminders from CTU.
4. CTU has been mandated with the responsibility of Billing, Collection and Disbursement of transmission charges towards ISTS licences from all the DICs. Such huge outstanding dues as brought out above are seriously affecting the cash flows of all the ISTS Licensees and causing adverse impact on the ability to carry on as a business enterprise and to fulfil loan repayment liabilities towards creation of transmission assets.
5. Regulation 4 of CERC (Regulation of Power Supply), 2010 reads as under:-

“In case of outstanding dues or in case the letter of credit or any other agreed Payment Security Mechanism is not maintained as per the Agreement, the generating Company or the transmission licensee, as the case may be, may serve a notice for regulation of power supply, on the Defaulting Entity, for reducing the drawl schedule in the case of the generating company or withdrawal of open access / access to Inter-State Transmission System in the case of the transmission licensee.”

6. In this regard, attention is invited to various correspondence issued by the CTU, as referred above, which demonstrates the default of JVVNL in payment of legitimate dues. As per the provisions of **Regulation 4 of CERC (Regulation of Power Supply) Regulation 2010, provisions of BCD procedure** approved by CERC and terms of TSA, the CTU is constrained to issue this “Notice for Regulation of Power Supply”.
7. Accordingly, in case of failure of JVVNL to clear the outstanding dues latest by 14.11.2016, the regulation of power supply of JVVNL through their Long Term Access shall be effected as follows:-

• Quantum of power to be regulated	:	200 MW of power drawl of JVVNL from ISTS network
• Commencement of Regulation of supply	:	From 00.00 Hrs of 18.11.2016
• Period of Regulation of Power supply	:	Initially for 4 months or till clearing of the dues outstanding for more than 60 days
• Source of regulation of Power Supply	:	To be regulated from various Power plants of NTPC, NHPC, SJVNL & THDC as per enclosed Annexure-1 .
• The regulation of power shall be carried out through Northern Region Transmission Corridor.		
• All other liabilities of JVVNL shall be as per the provisions of CERC Regulations		

9. Through a copy of this Notice, NRLDC is being requested to prepare implementation plan for Regulation of Power Supply of JVVNL & implement the same w.e.f. 00:00 Hrs. of 18.11.2016.

Gy

10. In view of above, it is advised to liquidate the outstanding dues greater than 60 days and enhance the LC as per above by **14.11.2016** failing which regulation of power supply shall also be enforced as stated above.

Thanking You,

Yours Faithfully,

(H.K. Mallick)
GM (Commercial & RC)
